

QuietMod Thermal Spray Rooms

The **Noise Barriers Thermal Spray Room** allows you to control noise, control dust, provide ventilation, and create a controlled, environmentally-safe spray enclosure.

The **Noise Barriers Thermal Spray Rooms** are pre-Engineered modular systems for building a sound controlled, high performance arc spray, flame spray, plasma spray or HVOF spray room.

Our rooms are specifically designed to work with spray operations and provide **in excess of 40 dBA sound reduction.**

- Predictable and guaranteed noise reduction
- Single source responsibility for design, supply and installation
- Easy to assemble, relocate or reconfigure
- Standard and custom layouts...let our design team help you customize the best layout for your operation!
- Subject to accelerated depreciation as equipment

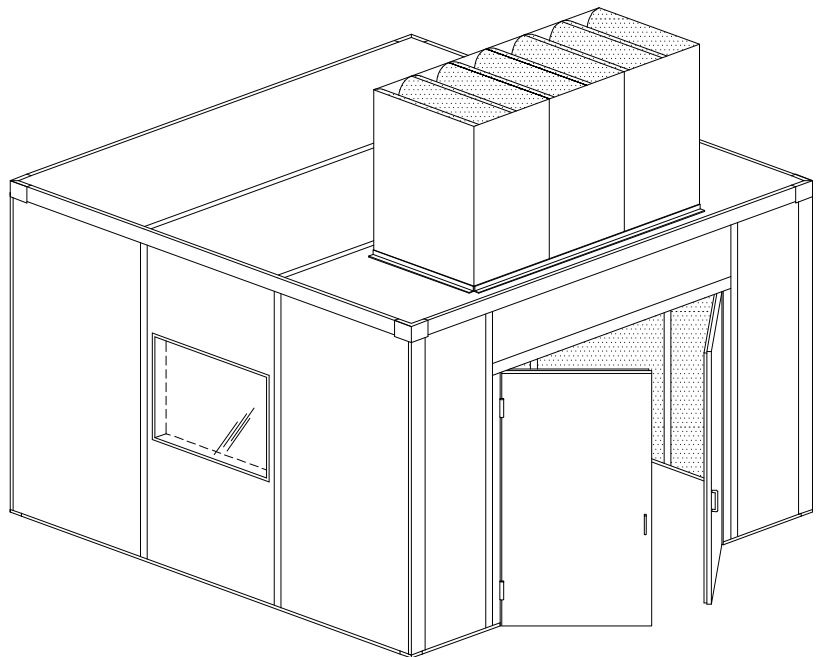

We also provide:

- **Sound Control Enclosures**
- **Sound Control Doors**
- **Sound Control Windows**
- **Bullet Resistant Windows**
- **Sound Absorption Panels**
- **HVAC Silencers and Systems**
- **Noise Barrier Walls**
- **Acoustic Louvers**
- **Gen. Set Enclosures**

The Noise Barriers Thermal Spray Room is a pre-engineered modular system for building a sound controlled, high performance spray room specifically designed to provide **in excess of 40 dBA sound reduction!**

Noise Barriers Thermal Spray Rooms include all materials necessary for your personnel to assemble a room within 1-2 days. Installation drawings and an installation manual together with our technical support make installation simple.

- **Modular Wall and Ceiling Panels**
 - 4" thick modular wall panels and 4" thick ceiling panels
- **Sound Control Doors**
 - Single-leaf 42" or 48" wide doors or 72" wide double-leaf doors with tinted windows
 - Sliding, bi-folding, and "L" shaped doors available as an option
- **Sound Control Windows**
 - Double glazed or projectile resistant window: 48" x 48" high or 36" x 48" high with tinted pull down shades
- **Silenced Ventilation System**
 - Including inlet and exhaust plenums, silencers and motor/blower assembly for any airflow requirement — **custom layouts available**
- **Installation Services**
 - Complete installation services available
