GENERAL NOTES:

1. Absorption panels are punched from 22 ga. perforated steel with 1/4" holes on 1/8" staggered centers.

2. Panel fill is non-combustible, sound absorbing fiberglass. Acoustic fill is protected with a heat-sealed 2 mil poly bag and plastic mesh spacer.

3. Panels are supplied with continuous 18 ga. top and bottom C-channel for mounting panels to existing wall/ceiling. Acoustic barrier varies based on existing wall construction.

4. Finish: Panels are available with a top polyester primer coating or unfinished C-80 spray paint. Standard color is RAL-9003 (std. white). Additional colors are available and can be selected by architect/customer from standard color chart supplied by noise barriers, LLC.
