When acoustic performance is a requirement, QuietSwing doors are the answer.
**Single-Leaf, Double-Leaf or Bi-Fold Designs**

- Test Facilities
- Engine Test Cells
- Quiet Rooms
- Product Jury Rooms
- Vibration Test Labs
- Mechanical Equipment Rooms
- Machinery Enclosures
- Control Rooms
- Conference Rooms
- Secure Areas
- Sensitive Compartmented Information Facilities (SCIF)
- Factory Offices
- Test Chambers
- Shake—Rattle—Roll Rooms
- Power Generation
- Compressor Rooms
- Gen. Set Rooms

These are an NIC 62 and 70. Field testing results may vary due to Room Size, Configuration and Room Acoustics.
All door and frame components are swing tested as a complete assembly prior to shipment

- Guaranteed acoustic performance
- All doors are tested at Riverbank Laboratories or USG Testing Services both are independent NVLAP door approved testing facilities
  - All hardware, seals and hinges are factory installed
  - Door includes custom cam-lift hinge design, eliminating the need for a threshold in most applications
    - Adjustable mortised bottom seal allows the door to adapt to site floor conditions
  - Double magnetic seals at head and jambs
  - Split-frame assembly allows installation into existing openings
  - All doors with vision panels are factory glazed prior to shipment
  - Designed to work with standard building hardware, factory installed if desired
  - Ease of operation conforms to ADA
  - Available in single-leaf, double-leaf and bi-fold designs

The Bottom Line:
Our Sound control doors start performing the moment they arrive on the job site. Get in touch with us today to discuss your QuietSwing Door needs.
