

## QuietSwing Sound Control Doors

### Door Hardware - Security Locksets

A revolutionary locking device that provides both high security AND life safety. The LKM7000 Series is a pedestrian door - deadbolt lock series that meets FF-L-2890 and is DoD and UL approved. Our Lock/One® LKM7000 Series of locks was developed to secure areas without risking lives. The majority of secure areas in the US utilize a CDX-O9 unit.

#### Typical Applications for the LKM7000 Series of Pedestrian Door Locks include:

- SCIF Doors (Sensitive Compartmented Information Facility)
- Communication Rooms
- Laboratories
- Weapons Storage
- Strong Rooms
