These are an NIC 62 and 70. Field testing results may vary due to Room Size, Configuration, and Room Acoustics.
All door and frame components are tested as a complete assembly prior to shipment.

- Guaranteed acoustic performance
- All doors are tested at Riverbank Laboratories or USG Testing Services
  - Lab, both are independent NVLAP approved testing facilities
- All hardware, seals and hinges are factory installed
- Door includes custom cam-lift hinge design, eliminating the need for a threshold in most applications
- Adjustable mortised bottom seal allows the door to adapt to site floor conditions
- Double magnetic seals at head and jambs
- Split-frame assembly allows installation into existing openings
- All doors with vision panels are factory glazed prior to shipment
- Designed to work with standard building hardware, factory installed if desired
- Ease of operation conforms to ADA
- Available in single-leaf, double-leaf and bi-fold designs
- Wood veneer finish available

The Bottom Line:
Our Sound control doors start performing the moment they arrive on the job site. Get in touch with us today to discuss your QuietSwing Door needs.
